1. Claims 1-93 are pending in the application and are currently under prosecution.
2. **Please Note:** In an effort to enhance communication with our customers and reduce processing time, Group 1640 is running a Fax Response Pilot for Written Restriction Requirements. A dedicated Fax machine is in place to receive your responses. The Fax number is 703-305-3704. A Fax cover sheet is attached to this Office Action for your convenience. We encourage your participation in this Pilot program. If you have any questions or suggestions please contact Paula Hutzell, Ph.D., Supervisory Patent Examiner at 703-308-4315. Thank you in advance for allowing us to enhance our customer service. Please limit the use of this dedicated Fax number to responses to Written Restrictions.
3. It is noted that the claims of the instant application have been determined to include linking claims. The restriction requirement among the linked inventions is subject to the nonallowance of the linking claim(s), claims 1 and 10. Upon the allowance of the linking claim(s), the restriction requirement as to the linked inventions shall be withdrawn and any claim(s) depending from or otherwise including all the limitations of the allowable linking claim(s) will be entitled to examination in the instant application. Applicant(s) are advised that if any such claim(s) depending from or including all the limitations of the allowable linking claim(s) is/are presented in a continuation or divisional application, the claims of the continuation or divisional application may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Where a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable.

In re Ziegler, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

4. This application contains claims directed to the following patentably distinct inventions linked by claims 1 and 10:

Group I. Claims 1 and 10 and all claims dependent upon claims 1 and 10 drawn to a structure for a toothpaste/dentrifice recited in claims 79-86, classified in Class 424, subclass 450.

Group II. Claims 1 and 10 and all claims dependent upon claims 1 and 10 drawn to a structure for a medicinal application recited in claim 87, classified in Class 424, subclass 450.

Group III. Claims 1 and 10 and all claims dependent upon claims 1 and 10 drawn to a structure for use in cosmetic applications recited in claim 88, classified in Class 424, subclass 450.

Group IV. Claims 1 and 10 and all claims dependent upon claims 1 and 10 drawn to a structure for use in hygiene applications recited in claim 89, classified in Class 424, subclass 450.

Group V. Claims 1 and 10 and all claims dependent upon claims 1 and 10 drawn to a structure for use in the food industry recited in claim 90, classified in Class 424, subclass 450.

Group VI. Claims 1 and 10 and all claims dependent upon claims 1 and 10 drawn to a structure for use in agricultural applications recited in claim 91, classified in Class 424, subclass 450.

Art Unit: 1642

Group VII. Claims 1 and 10 and all claims dependent upon claims 1 and 10 drawn to a structure for use in water treatment applications recited in claim 92, classified in Class 424, subclass 450.

Group VIII. Claims 1 and 10 and all claims dependent upon claims 1 and 10 drawn to a structure for use in disinfection applications recited in claim 93, classified in Class 424, subclass 450.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions I-VIII as disclosed are biologically and chemically distinct, unrelated in function, made by and used in different methods and are therefore distinct inventions.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and/or recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

6. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. § 103, the examiner presumes that the subject matter of the

Art Unit: 1642

various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 C.F.R. § 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of potential 35 U.S.C. § 102(f) or (g) prior art under 35 U.S.C. § 103.

7. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed. Further, Applicant must indicate which claims are readable upon the elected invention.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan Ungar, PhD whose telephone number is (703) 305-2181. The examiner can normally be reached on Monday through Friday from 7:30am to 4pm.
